OPTIONAL EQUIPMENT (CONTINUED):

- Remote Pump Mounting Kit offers the flexibility to install the pump unit independently from the liftgate mount assembly when mounting space is an issue (recommended for low-bed height mounting applications)

- Walk Ramp Installation Kit allows liftgate to be used in conjunction with slide out walk ramp (for bed heights 42"– 54" only)

- Power-Down Operation for consistent performance regardless of weather conditions or temperature (dual solenoid)

- Cab Shut-Off Switch allows operator to shut off power to control switches, preventing unauthorized use of the liftgate

- Dual Controls (street-side control) for added driver convenience

- Two step Steel Dock Bumpers with bolt on capability protect the liftgate from damage caused by backing into loading docks

- Receiver-style hitch (Class IV - 10,000 lb. rating with 1,000 lb. tongue weight) adds trailer towing versatility to vehicles with E Series liftgates (Draw bar and ball hitch not included; minimum 47" Bed Height on single cylinder; 39" to 56" Bed Height with twin cylinder)

- Draw Bar Kit (Class III) gives 13" ball height range flexibility (Ball hitch not included)

- Optional dual cart stops (only available on wedge ramps)

- Customized Options – contact factory
